Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19 and 34, drawn to a composition, classified in class 524, subclass 270.
- II. Claims 20-30, drawn to an assembly, classified in class 362, subclass 267.
- III. Claims 31-33, drawn to a method, classified in class 156, subclass 60.

Restriction is proper because the compositions of claims 1-19 and 34 may be useful in an assembly and in a method other than those of claims 20-33.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. Goozner on July 12, 2002 a provisional election was made with traverse to prosecute the invention of Group i, claims 1-19 and 34. Affirmation of this election must be made by applicant in replying to this Office action. Claims 20-33 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-19 and 34 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Schmidt.

Schmidt discloses hot melt adhesives comprising optionally grafted thermoplastic elastomers, optionally grafted polyolefins, adhesive resins and polybutylene 9abstract and claims).

Therefore the reference anticipates the rejected claims.
